

Press Release2:

FOR IMMEDIATE RELEASE

COIR CROP TECHNOLOGIES PTY LTD APPOINTS TAPEX HORTICULTURE GROUP (GREENLIFE STRUCTURES – POLYGRO), AS MASTER DISTRIBUTOR IN AUSTRALIA.

Sydney, Australia - Coir Crop Technologies Pty Ltd, headquartered in Sydney, Australia, is the exclusive international marketing, research and development partner and global supply chain manager for Galuku Exports India, leading manufacturer of coir products for the soilless farming horticulture industry. In a new partnership agreement, Coir Crop Technologies has appointed Tapex Horticulture Group (GreenLife Structures – Polygro), as its master distributor for coir substrates, ancillary products and associated services throughout Australia.

As the global demand for soilless farming products continues to grow, Coir Crop Technologies is committed to providing the highest quality coir substrates, Coco Peat and ancillary products used in the soilless farming industry. Tapex Horticulture Group, with its extensive experience in the horticulture industry, is the perfect partner to help us meet this demand and expand our reach in the Australian market.

"We are thrilled to join forces with Tapex Horticulture Group (GreenLife Structures-Polygro)," said Ronan Hoyle, COO of Coir Crop Technologies. "This partnership aligns with our commitment to quality and innovation and will enable us to better meet the needs of our customers by offering exceptional solutions for their soilless farming requirements." Tapex Horticulture Group is equally excited about the partnership, "We are delighted to be appointed as the master distributor for Coir Crop Technologies and Galuku Exports India in Australia. The coir products offered by Coir Crop Technologies are of the highest quality and we are confident that they will be well received by our customers, as they represent a Global supply partner with whom we can support and grow the Australian Coir market."

We look forward to working together and being of service to the soilless farming industry in Australia.
