

## Strawberry GrowBag

IN-SYGB-100x20x8-16L

### Advanced Strawberry Farming

Transition your strawberry farming from the soil to efficient above-ground systems, helping you experience better yields and modern harvesting techniques.

Let us expertly help you transition your strawberry farms to the latest growing methods.

### TECHNICAL ANALYSIS

| Property                       | Parameters                               | Value      |
|--------------------------------|--|------------|
| <b>Physical Analysis</b>       | Air Filled Porosity – AFP (% v/v)        | 30 - 35%   |
|                                | Water Holding Capacity – WHC (% v/v)     | 60 - 65%   |
|                                | Capillary Uptake Value – CUV (mL/10mins) | 45ml/10min |
|                                | GrowBag Capacity (Litres)                | 16L        |
| <b>Formula</b>                 | Coir Pith & Fibre 2 - 10mm               | 80%        |
|                                | Coir Chips                               | 20%        |
|                                | Coir Cut Fibre                           | -          |
| <b>Chemical Analysis</b>       | EC Method saturated paste test 1:1.5v/v  | <0.8mS/cm  |
|                                | pH Method saturated paste test 1:1.5v/v  | 6.0 – 6.8  |
| <b>Product Characteristics</b> | Size (cm)                                | 100x20x8   |
|                                | UV Rating plastic Sleeve                 | 2Yrs       |
|                                | Coir dry weight                          | 1.8kg      |
| <b>Loadings</b>                | Units per pallet                         | 340        |
|                                | Units per container                      | 13,600     |
|                                | Metric Tonne/40'HC (Net Product)         | 24.8MT     |

### FEATURES

- Significantly Reduced Disease Risk.
- Improved Quality And Flavour.
- Save On Labour Costs With Easy, Waist-High Planting, Husbandry And Picking.
- Increase Yields Per Plant And Per Unit Area.
- Pre-Cut Drainage And Planting Holes, And Pre-Drill Dripper Holes According To Your Requirements.
- Suitable For Multiple Crop Cycles.

Manufactured by Galuku India
